INTRODUCTORY AND EXPLANATORY OBSERVATIONS.

LOCAL TAXATION IN IRELAND, 1906-7.

The receipts for the purposes of local government in Ireland during the financial year 1906-7, excluding loans, and grants provided by Statute, and making the necessary deductions for duplicate entries in the local accounts from which the following Returns have been prepared, amounted to £4,230,770, an increase of £119,810, as compared with the preceding year.

Of this amount 74 per cent. was raised directly by rates assessed on lands, buildings, &c., 12 per cent. was derived from tolls, fees, stamps, and dues, 5 per cent. came from rents of property in lands, houses, &c., while the remaining 9 per cent. was made up of various miscellaneous items of local income classed as other receipts; these proportions being practically identical from year to year.

The table on page vii. gives the amount received from each of these sources, £3,118,496 as rates, £519,318 as tolls, &c., £208,950 as rents, and £384,006 as other receipts, and each of these heads of revenue, it will be observed, shows an increase on the corresponding amount in the preceding year. The chief increase was in poor rate, £76,375, of which £62,789 appertained to the counties, but, as shown hereafter,* the latter was not required for the year's expenditure, as a sum slightly in excess of such amount remained in hands at the close of the year. The increase in municipal and other rates amounted to £21,903, and it may be seen by the table on page x. that, with a few exceptions, there has been an increase under this head year after year for a long period, which must be attributed mainly to payment of principal and interest in respect of loans obtained for sanitary schemes undertaken by Town Authorities†. The increase under the other heads of revenue does not call for any special notice.

The total of the four branches of local revenue, the sum first mentioned above, is regarded as the amount of the local taxation of the year, but it is to be noted that, unlike rates, the taxes known as tolls, fees, stamps, and dues are restricted in range of operation, and to a great extent represent payment for value received, while the income arising from rents, and from other receipts, is not the produce of any tax or rate, but is dealt with as such in its application to expenditure. Moreover, with regard to "other receipts" it will be seen hereafter that there are included under this head the profits of certain reproductive undertakings‡ in the hands of some of the local bodies, representing 3·2 per cent of the total net revenue of the year.

* On page xii.

† The municipal indebtedness on account of such loans is referred to on next page.

‡ See pages vii. and viii.

The amount produced by rates, in which is included about £112,715 raised in respect of water supplied for domestic and other private purposes (3·6 per cent. of the whole amount so produced),* represents an average of 4s. 0½d. in the pound on the rateable valuation of Ireland at the beginning of the year,† and an average of 14s. 2d. per head of the population as estimated at the middle of the year.‡

A net sum of £3,477,315 obtained from local sources, including rates to the amount of £3,058,705, was applied towards the expenditure of counties and towns during the year. This was supplemented by payments made from the Local Taxation (Ireland) Account to the extent of £1,319,047, and by further sums shown in the accounts to have been obtained from the Imperial exchequer amounting to £35,303, so that of the total net revenue of county and town authorities 72 per cent. came from local sources, and 28 per cent. from grants. On an average the grants were equivalent to 1s. 9d. per pound of rateable value, and to 6s. 2d. per head of estimated population. The Agricultural Grant paid to county councils during the year amounted to £719,796§, and was equal to 23 per cent. of the whole county revenue. The effect of this Grant, the usual amount of which so paid is £727,337, on the rates of 1906-7 for county, union, and district charges, in the case of each rural district, can be ascertained from a table given in the appendices.||

The total expenditure during the year as charged to the revenue and capital accounts of the several local administrative bodies, including those whose revenue is obtained from rates raised by other local bodies, e.g., boards of guardians, amounted to £8,851,186, and their total receipts from all sources to £9,000,534, of which £976,321 came from loans. Of the expenditure £1,037,754, or 11·7 per cent. representing 12·9 per cent. of revenue, was applied to the discharge of borrowed moneys and the payment of interest on such moneys.

The local indebtedness on account of loans and stock at the close of the year amounted, as may be seen by a summary table on page xxiii, to £19,279,956, details of which will be found at pages 47 to 60.¶ Of this, £8,806,476 appertained to municipal authorities, being an increase of £7,149,134 since 1878, the year in which the first of the existing code of Irish public health statutes was enacted. The municipal indebtedness includes £1,643,430 for water supplies, £1,336,904 for purposes of lighting, £1,088,345 for sewerage, and £714,029 in respect of schemes for the housing of the working classes; while for housing schemes in rural districts the indebtedness stood at £2,813,702.

Complete information is not forthcoming with respect to the amount standing to the credit of sinking funds applicable to the discharge of the portion of the local indebtedness which is repayable by such means, but it is estimated that a sum of about £526,000 was available at the close of the year towards the extinction of the municipal debt.

* See page viii.

† £15,460,564, as may be seen by the table on page x. The present rateable valuation of Ireland, according to the revised lists issued on the 1st of March, 1906, amounts to £15,600,071 (table xxix.) including £9,464,832 in respect of land, £3,813,853 in respect of buildings, and £2,321,386 in respect of other hereditaments. This represents an increase of £1,482,505 in the last twenty-one years. The present valuation of each rural and urban district will be found in the tables on pages 65 to 72.

‡ 4,387,887.

§ See the second note on page ix.

|| See pages 63 to 68.

¶ This does not include any portion of the temporary loans (£70,017) advanced to 59 Boards of Guardians in the early part of 1905 to enable them to procure seed potatoes to sell to small occupiers and cultivators who were unable to provide a supply for themselves owing to the partial failure of the potato crop in some of the western unions in the preceding year, inasmuch as these loans are being recovered from those who received the seed by means of special rates assessed on them for the purpose. The portion of the above which remained unpaid on the 31st of March last amounted to £31,301. See page 56 *et seq.*, for details of the indebtedness of Boards of Guardians.

Of the amount of other receipts in the above table (£384,006) £251,838 appertained to urban and rural district councils and the Belfast Water Commissioners, of which, a sum of about £137,061, 3·2 per cent. of the total receipts of the year, was derived from the profits of undertakings in the hands of these authorities. A further portion of other receipts amounting to £54,340 was received in respect of Government property. These profits and receipts are referred to in the following paragraphs (a) and (b).

* The sums paid to town authorities as "way leave" by tramway companies are included in this column.

† The amount of the rate levied in aid of the cost of the Dublin police force is included in the first two sums given above as poor rate. See further as to this rate on page xvii.

(a) UNDERTAKINGS IN THE HANDS OF LOCAL BODIES.

Gas and Electric Light.

The income derived from the gas, electric light, or other undertaking in the hands of a town authority is dealt with in the returns of local taxation in the following manner. The accounts of the undertaking are kept apart from the municipal accounts, and any profits on a year's transactions, which have been applied towards municipal expenditure, are included under the head of other receipts. The total amount of the profits on lighting undertakings so applied in the year 1906-7 is £30,309.

Water.

The receipts connected with water undertakings in the hands of local bodies are two-fold,—those produced by rates assessed on valuation, and those arising from sales of water, water rents, &c. The amount of the latter included in the other receipts of 1906-7 is £105,752. As previously stated,* the sums produced by public and domestic water rates are included in the amount given as rates in the table on the preceding page, but as they are not always shown separately in the local accounts, it is not possible to determine with strict accuracy the amount produced by each such rate. From a careful estimate, however, it appears that of their total produce, viz., £192,377, a sum of £112,715 was for water supplied for domestic and other private purposes, being 5·6 per cent. of the total amount raised as rates during the year.

Tramways.

The tramway system in Belfast became the property of the Corporation of that city by purchase as from the 1st of January, 1905,—this being the only case in Ireland in which such an undertaking is managed by a local authority. The following is a brief summary of the accounts in connection with the system for the year ended the 31st of March last, and it may be stated that the traffic revenue exceeded that of the previous year by £44,632. The usual contribution of £5,962 was made from such revenue to the municipal funds of the Corporation, and, after providing for working expenses, maintenance, &c., and making the necessary payments in respect of capital moneys obtained for the purchase of the undertaking, a sum of £13,000 was set apart for depreciation.

(b) BOUNTY IN LIEU OF RATES ON GOVERNMENT PROPERTY.

The contributions† annually made by the Treasury to the local taxing authorities as bounty in lieu of rates on Government property are included in other receipts,—not having been raised locally as rates. The amount of such contributions in the accounts of the local bodies for 1906-7, is £54,840, of which town authorities received £48,833, and county authorities, £10,507.

* See page vi.

† The first contributions were made in respect of the year ended March, 1875. The valuation of Government property is not included in the valuations given in these Returns.

LOCAL TAXATION.

The following sums, additional to those given in the preceding table, appear by the accounts to have been received from Parliamentary Grant or other Imperial tax during the period dealt with in these Returns:—

For the years included in this table the average amount of the Belfast water rate included in column 2 was £41,485, and of the Rutland Square tax (Dublin) £309.

The valuation in force at the time the rates, of which the produce is given in col. 3, were assessed was, in each case, that for the preceding year, the valuation last given being that as at 1st March, 1907.

CLASSIFICATION OF LOCAL TAXATION.

The various branches of local taxation in Ireland are classified hereinafter in the following manner, and such explanatory observations as appear to be necessary are given in each case.

- I. County taxation.
- II. Town "
- III. Taxation in districts chiefly municipal, but raised by Authorities other than municipal in some cases.
- IV. Receipts of Joint Boards.
- V. Receipts of Port Sanitary Authorities.
- VI. Taxation arising from Fees, Stamps, Fines, Dogs Licence Duty, &c.
- VII. Taxation produced by Tolls, Dues, &c.
- VIII. Receipts on account of the Mercantile Marine Fund.

I.—COUNTY TAXATION.

An administrative county, other than a county borough, comprises, as units of taxation for county purposes, a number of rural districts,* varying from three in Carlow, Longford and Louth, to eighteen in Cork, the total in the thirty-three administrative counties amounting to 213. These districts are arranged with regard to the 159 poor-law unions as follows:—One hundred and thirteen of the latter are confined to county limits, and of these 65 are co-extensive with rural districts and 48 include a rural district each with one or more urban districts, while 38 extend into two counties and 8 into three, the former including two rural districts each, a total of 76, and the latter three, a total of 24.†

The ordinary expenses of a county are provided for by means of a rate on each rural district, known as poor rate, which the county council is empowered to make once a year and collect in equal half-yearly instalments. The sums raised by this rate form portion of the fund from which all county expenditure is defrayed, including payment of the moneys required to meet the demands of boards of guardians for poor law purposes including relief under the Medical Charities Act, councils of rural districts for general expenses in connection with public health, and the committees of the 35 asylum districts for the accommodation and maintenance of lunatic poor.‡

For expenses other than the foregoing, i.e., payments in connection with charges for sewerage, water supply, or other public health undertaking, guarantees for railways, harbours, &c., compensation for criminal injuries and the cost of extra police, all of which are known as separate charges, special rating areas are prescribed, and the sums required for these purposes are separately estimated and raised by a separate item of the poor rate assessed on the special area in each instance. The area of charge in respect of a public health undertaking may consist of the whole, or part only, of a rural district, while in the other cases mentioned it may include the whole county, or be restricted to a portion of the county. The number of rating areas for separate charges at the present time, other than rural districts, is 557.

County councils are also authorized to make rates for the following purposes. By section 19 (1) of the Agriculture and Technical Instruction (Ireland) Act, 1899, they are empowered to raise by means of the poor rate, for the purpose of agriculture and other rural industries,§ or for any other purpose for which they are authorized by that Act to expend money, a sum equal to a rate of one penny in the pound over the whole of the rural districts comprised in their respective counties, congested areas being excluded if the councils in such cases so desire, pursuant to section 1 of the Agriculture and Technical Instruction (Ireland) Act, 1902. They are also required by section 4 of the Public Libraries (Ireland) Act, 1902, to provide the moneys which rural district councils, who have adopted the Public Libraries Act (Ireland), 1855, may find to be necessary for the purposes of that enactment, by means of a rate not exceeding one penny in the pound, to be levied, in each case, over the whole rural district. These rates are in addition to the maximum rate of a penny under the Technical Instruction Act, 1899, the council of a county being a local authority within the meaning thereof, and their expenses as such being county at large or rural district charges as the council direct, pursuant to the Local Government (Ireland) Act, 1895, sections 7 and 74 (2) respectively.

The rate on each rural district for the ordinary expenses of the year ended the 31st of March, 1907, and the items included therein for county at large, union, and rural district charges, as levied on agricultural land and on other hereditaments, are shown in a table on pages 62 to 69. The rate for separate charges in each case where it is levied over the whole area comprised in a rural district is also given in the table, together with the total amount collected in each district during the year, i.e., the produce of the general rate on the district, and of the rate, or rates, for separate charges, irrespective of the area on which the latter may have been assessed, and the total for each county, which total also appears with other county receipts on page 2.

* Urban districts are also comprised in the counties, but not for purposes of taxation. As rating areas distinct from those in counties they are dealt with under the head of Town Taxation on page xiv.

† See page 18 et seq. for list of rural districts, and page 56 et seq. for list of unions. In the latter the unions are placed in one county in each case, a union extending into two or more counties being placed in the county in which its chief or central place is situated.

‡ See page 45 for list of asylum districts.

§ The amount so raised, in conjunction with a larger amount contributed by the Department of Agriculture and Technical Instruction, appears to be expended in affording instruction in agriculture and other rural industries and also in technical instruction.

In the accounts of 1906-7 particulars have been introduced of the seed rate collected and paid over to such Boards of Guardians as obtained loans for the purchase of seed potatoes in the early part of 1905, but the matter does not affect local taxation, as this rate is merely the price paid by small occupiers and cultivators for seed supplied to them. Omitting such particulars, the revenue and expenditure of the counties in the last two years are summarized as follows:—

The receipts in 1906-7 show an increase under each principal head of revenue on those of the preceding year, that in poor rate amounting to £62,789, in grants and payments from Imperial sources to £89,376, and in receipts other than the foregoing to £26,438, a total of £158,603. This sum provided for a deficiency of £89,804 in the revenue of 1905-6 and for £5,941 the increase in expenditure in 1906-7, while £62,858 remained in hands at the close of the year,† an amount which, it will be observed, is somewhat in excess of the increase in poor rate.

The expenditure shows a slight increase on that of 1905-6, £5,941, as already mentioned, but the moneys supplied to guardians for union charges, and to rural

district councils for expenses in connection with public health matters show substantial increases, £21,442 and £14,940 respectively. The expenditure on roads decreased by £38,395, and the similar expenditure defrayed from loans by £28,344.* In addition to the amount paid to boards of guardians, as shown in the preceding summary, viz., £1,088,641, it will be seen by table II of the appendices that further sums, amounting to £219,392, were paid by the councils of the county boroughs to the guardians whose unions are partly included in these boroughs. It will also be seen by that table that payments were made to committees of lunatic asylum districts by the councils of county boroughs to an amount of £104,195, additional to the sum of £405,617, given on the preceding page.

The following are brief summaries of the accounts of boards of guardians, of rural district councils, and of committees of lunatic asylum districts, for the year ended the 31st of March, 1907, and for the preceding year:—

II.—TOWN TAXATION.

The number of towns under municipal government is one hundred and twenty-four, of which eleven are boroughs constituted under the Municipal Corporations (Ireland) Act, 1840 (3 & 4 Vict., ch. 108); one hundred and four are under the Towns Improvement (Ireland) Act, 1854 (17 & 18 Vict., ch. 103); and nine are under special local Acts named in the table on page 10. Six of those in the first-mentioned group are administrative counties, i.e., county boroughs, and ninety-five of the total number are urban sanitary districts. These districts, known as urban districts, are the eleven boroughs, the nine towns under local Acts, and seventy-five of those under the Towns Improvement Act.

Lists of the towns, in provincial and county order, classified in accordance with their municipal constitution, and also alphabetically arranged as urban and non-urban districts, are given in tables in the appendices.† In that in which the towns under the Act of 1854 appear a column will be found giving the date on which this enactment came into force in each case, but some of these towns had previous municipal existence, among which the following were brought under its operation by Section 41 of the Local Government (Ireland) Act, 1898:—Carrickfergus,§ Bandon, Dungannon, Fethard, Monaghan, Strabane, and Wicklow. The first-named town had been previously under sections 16 and 26, respectively, of the Municipal Corporations (Ireland) Acts, 1840 and 1843, the remainder under 9 Geo. IV., ch. 82. The provisions of the Towns Improvement Act, in whole or in part, are also in operation in six of the eleven boroughs—the Act not extending to five of them, as provided by Section 100—and in seven of the nine towns under local Acts. These thirteen towns are specially indicated in notes prefixed to Tables II and III of the appendices.

Within their respective jurisdictions urban district councils possess full administrative powers in regard to matters pertaining to public health, they are the sole rating authorities, and are, moreover, road authorities, and, as such, share in the grant provided by the Probate Duties (Scotland and Ireland) Act, 1888, now known as the Estate Duty Grant. They receive recompment, also, from the local taxation account in respect of the salaries paid to their sanitary officers, and, for the promotion of technical instruction, grants are made to them in aid of approved schemes, by the Department of Agriculture and Technical Instruction. The amount at present allocated under this head for the county boroughs is £26,000 a year, and for counties and urban districts £25,000.

As previously mentioned, the six county boroughs are administrative counties in themselves, but other urban districts, although free from county jurisdiction, are liable to contribute to certain branches of county expenditure. The liability in this respect of

‡ Tables II, III and IV, and XXXIII and XXXIV, respectively.

§ In the case of Carrickfergus an Order was made by the Local Government Board, under Section 124 of the Act of 1898, applying Section 41 as from the 7th of November of that year.

such urban districts as have been dealt with by the Local Government Board, under section 71 of the Local Government (Ireland) Act, 1898, section 3 of the Act of 1901, and sections 3 and 13 of the Act of 1902, and the financial relations generally between counties and these urban districts, can be ascertained from a table in the appendices.*

The twenty-nine towns† which have not been constituted urban sanitary districts are subject, as regards public health matters, to the control of the councils of the rural districts in which they are respectively situated,—the governing bodies of these towns, Town Commissioners, having no administrative powers per se under the Public Health Acts. However, to enable them to provide housing accommodation for the working classes they are authorized by section 99 (1) of the Housing of the Working Classes Act, 1890, to adopt Part III. of that enactment as in the case of urban authorities, and the sections of the Public Health (Ireland) Act, 1878, in regard to borrowing, acquiring lands, &c., which apply to these authorities for housing purposes, are declared applicable to the Commissioners for the like purposes by section 1 of 59 and 60 Vic., cap. 11. Moreover the maximum rate of 1s. in the £ leviable in these towns under section 60 of the Act of 1854 may be increased for such purposes with the consent of the Local Government Board. In the following towns of this class housing schemes have been put into operation:—Ballyshannon, Bantry, Boyle, Callan, Mullingar, and Newbridge. The Commissioners are also authorized to establish and regulate markets in their towns, the powers in this respect conferred on urban authorities by section 103 of the Public Health Act, 1878, being extended to them by section 21 of the Public Health Act, 1896.

The latest rates in urban districts, and those for the preceding year, will be found in table XXXIII. of the appendices, together with particulars as to the amount of poor rate collected, the population, valuation, area, &c., in each case.† Similar information with respect to rates, population, valuation, &c., in towns which are not urban districts, will be found in table XXXIV.† In two of these towns, Fethard and Tuam, no rates are struck as the revenue derived from market tolls and rents is sufficient to meet expenditure, in Aghnacloy and Callan rates have not been necessary for some years, while in the remaining towns, excluding Arklow,§ the rates vary from 4d. to 1s. It is to be noted, however, that these rates are for municipal purposes only, and that, in addition, each town is liable for the rate on the rural district in which it is situated, and, further, if the town is included in an area of charge for any of the special purposes mentioned in the third paragraph on page xi, it is also liable for the rate required to meet payments in connection therewith.

The present rateable valuation (1st March, 1909) of the urban districts amounts to £4,840,662, and of the towns which are not urban districts to £125,918, making a total of £4,465,880, from which it appears that property amounting to upwards of one-fourth part of the rateable valuation of Ireland (£15,600,071) is included in areas subject to municipal government.

RECEIPTS AND EXPENDITURE OF TOWN AUTHORITIES

An abstract of the receipts and expenditure in each town during the year ended the 31st of March, 1907, will be found in the appendices.‡

All the receipts are grouped in Part I. of the following table in order to facilitate comparison, and obtain a general view of the finances of the different classes of town authorities, and they are divided into (1) rates for municipal purposes; (2) poor rates made and collected by councils of urban districts; (3) tolls and market charges, dues, and fees; (4) rents; (5) dogs' licence duty; (6) other sources of income, including receipts from gas and water undertakings; (7) borrowed money and stock issued; (8) payments from the Local Taxation Account; and (9) sums received from other local taxing bodies.

The purposes to which the receipts are applied are shown in Part II.

III.—TAXATION IN DISTRICTS CHIEFLY MUNICIPAL, BUT RAISED BY AUTHORITIES OTHER THAN MUNICIPAL IN SOME CASES.

(a.) BELFAST WATER RATE.

The Belfast City and District Water Commissioners are empowered to levy the following rates in connection with the water supplied by them to the city of Belfast and certain adjacent districts:—A domestic water rate not exceeding 1s. 8d. in the £, and a public water rate equal to one-fourth part of the domestic rate, subject to a proviso that the latter in certain cases shall not exceed 2d. The rates assessed for the latest year preceding the 31st of March, 1907, viz., that ended on the 31st of October, 1906, were 1s. 4d. and 4d., respectively.

The receipts and expenditure of the Commissioners during that year are shown in table VI of the appendices, and they are summarized as follows:—

Receipts.	£	Expenditure.	£
Rates, ...	59,593	Payments on account of borrowed money, ...	139,193
Water rents and sales, ...	33,569	Other expenses, ...	28,653

Total, ...	<u>£131,068</u>	Total, ...	<u>£197,851</u>

(b.) TAXATION IN AID OF THE COST OF POLICE.

(i.) The Dublin Metropolitan Police.

Under Section 4 of the Act 1 and 2 Vict., ch. 35, a rate of 8d. in the £, producing an average of about £42,000 a year, is assessed within the police district of Dublin Metropolis in aid of the cost of the Dublin Metropolitan Police. By section 56 (4) of the Local Government (Ireland) Act, 1898, it is provided that the produce of this rate shall be paid in two equal half-yearly payments to the Commissioner of Police on his demand, by the council for the city of Dublin as regards so much thereof as is raised in the city, and by the council of the county of Dublin as regards so much as is raised outside the city. As in 1906, the portion raised in the city during the year ended in March, 1907, was not paid over in accordance with this requirement, and, in consequence, an equivalent amount was deducted from sums payable to the council from the local taxation account, pursuant to section 80 (2) of the last-named Statute, and applied in discharge of the Commissioner's demand.

The amount so deducted and applied, which, for the purpose of these Returns of Local Taxation, is regarded as the sum raised by the police rate in the city, and the produce of such rate in the county, together with certain receipts in the nature of local taxation (publicans' and pedlars' certificates, &c.), for the year ended the 31st of March, 1907, all of which were appropriated in aid of the cost of the police, are as follows, being summarized from table VII of the appendices:—

	£	£
Rates on houses and land (in city, £28,560; in county, £14,925), ...	43,382	
Carriage duty,*	3,666	46,887
Taxes peculiar to Dublin:—		
Publicans' and pedlars' certificates, ...	482	482
Taxes connected with police courts rather than with police:—		
Fines and penalties from police courts, ...	4,057	
Fees from police courts, ...	1,616	5,645
Total, ...		<u>£53,015</u>

The average amount realized by local appropriations in aid of the cost of this force during the five years ended March, 1907, was £52,748, of which a sum of £41,687 was raised by the police rate; and, as the whole cost of the service, including the Police Courts, Offices, &c., averaged £146,981 a year for the same period, it may be taken that 36 per cent. of the cost of the Dublin Metropolitan Police is defrayed by receipts from local sources (28 per cent. falling on the police rate), and 64 per cent. by the Imperial Exchequer.

* i.e. Duties payable under the Dublin Carriage Acts.

(ii.) *The Royal Irish Constabulary.*

The cost of the Royal Irish Constabulary is charged on Imperial funds, but there are certain payments made from the taxes levied by county councils which are appropriated in aid of the vote for the maintenance of that service in pursuance of the following arrangement:—

In any county in which a force of police in excess of the allotted free quota is found to be necessary, one-half the cost of such extra force is charged to the county council; and it will be seen by table I of the appendices that the sums paid for additional police in counties during the year ended the 31st of March, 1907, amounted to £2,285.

Town authorities are charged for the Constabulary in two cases only, Belfast and Londonderry, the charge being made for one-half the cost of an extra force additional to the ordinary force which is maintained entirely from Imperial funds, and for the whole cost of such members of the police as are engaged in night watching. This outlay is regulated by Statute in each case,* and it amounted in the first-named city to £20,764, and in the latter to £842 for the same year.

The charge on local taxes for the cost of this police in 1907 would, therefore, appear to have amounted to £23,841, that is about 1·8 per cent. of the total actual cost, viz., £1,323,886.

(c.) *RUTLAND-SQUARE TAX (DUBLIN).*

The Governors of the Rotunda Hospital levy a tax under 25 Geo. 3, ch. 43 (Ireland), sections 20 and 21, on the occupiers of the houses on the east, north, and west sides of Rutland-square for the purpose of lighting those sides of the square, and for keeping the railings of the enclosure in repair—the balance being applied towards the maintenance of the hospital. The tax is a charge on each house in the square of 1s. 9d. per foot of the frontage thereof, with a fixed annual payment by the residents for each light or lamp in front of their houses. The receipts on account of this tax in the year ended the 31st of March, 1907, amounted to £288 8s. 1d., and the other receipts to £67 2s. 0d., of which a sum of £127 12s. 0d. was applied to purposes of lighting, and £188 7s. 2d. towards wages, repairs, &c., leaving a balance of £39 10s. 11d. available towards the maintenance of the hospital†

(d.) *TAXATION IN CONNECTION WITH THE PORT AND DOCKS BOARD, DUBLIN.*

A local tax known as "bridge rate," producing an average of £6,300 a year, has been levied within the police district of Dublin Metropolis since 1878 to provide for the repayment of a loan of £118,765 obtained by the Port and Docks Board for the erection and maintenance of two bridges over the River Liffey. It has now ceased, however, as the loan is paid off, and the maintenance of these bridges and of the other bridges across the river and of the quay walls is provided for by a tax which can be levied under the Act 17 Vic, cap. 22, on the police district, but no assessment has been made under that enactment for some years. A sum of £172 10s. 10d. "bridge rate" was paid to the Board by the council for the city of Dublin, one of the rating authorities in the case, during the year ended the 31st of December, 1906, as may be seen by table IX. of the appendices, and this closes the entire matter.

* 28 and 29 Vic, ch. 70, and 33 and 34 Vic, ch. 83, respectively.

† See table VIII on page 34.

IV.—JOINT BOARDS FOR SANITARY PURPOSES.

(a.) *Drainage Boards.*

There are three joint boards established in Ireland for sewerage purposes, viz., Blackrock and Kingstown, Rathmines and Pembroke, and that of the Skule Bog united district, which consists of certain townlands in the Croom and Limerick No. 1 Rural Districts, in the County of Limerick. The two first named boards were constituted by special legislation, 56 and 57 Vict., ch. cxxiv., and 40 and 41 Vict., ch. lxxxii., respectively, and the third by Provisional Order under Section 12 of the Public Health (Ireland) Act, 1878, confirmed by 1 Edw. 7, ch. cxlii.

The receipts and expenditure of these bodies are set forth in table X of the appendices, of which the following is a summary:—

<i>Receipts.</i>		<i>Expenditure.</i>	
	£		£
From the constituent Bodies, ...	12,858	Works and Maintenance, ...	1,565
Rents, ...	44	Interest and Sinking Fund, ...	8,018
Other receipts, ...	105	Salaries and Wages, ...	2,008
		Other expenditure, ...	1,968
Total, ...	13,008	Total, ...	£13,561

(b.) *Waterworks Board.*

For the purpose of supplying water to the urban districts of Portadown and Banbridge a joint board consisting of a representation of the council of each of these districts has been formed, in pursuance of a Provisional Order made and confirmed in 1903, 2 Edw. 7, ch. xciii. This body, known as the Portadown and Banbridge Joint Waterworks Board, and the Belfast City and District Water Commissioners already referred to, are the only public bodies in Ireland, other than the councils of urban and rural districts, who are authorized to provide water supplies for public and domestic use. Unlike the Commissioners, however, the Board is not invested with rating powers,—its expenditure being provided for by funds supplied by the councils of the constituent districts, on demand, as is the case with every joint board.

The following is a summary statement of table XI of the appendices showing the receipts and expenditure of this Board during the year ended in March last:—

<i>Receipts.</i>		<i>Expenditure.</i>	
	£		£
From the constituent Bodies, ...	4,134	Works, ...	7,210
Money borrowed, ...	—	Payments in respect of borrowed money, ...	2,614

Total, ...	£4,139	Total, ...	£10,256

(c.) *Board for cleansing of Foreshore.*

To provide for the abating of a nuisance caused by the deposit of seaweed and sewage matter on a portion of the southern foreshore of Belfast Lough, a joint board, consisting of a representation of the Corporation of Belfast, and of the Councils of the urban district of Holywood, and of the rural district of Castlereagh, known as the Belfast, Holywood, and Castlereagh Joint Board, has been formed, pursuant to a Provisional Order made in April, 1905, and confirmed by 5 Edw. 7, ch. exxiii. The following is a brief statement of its receipts and expenditure for the period from 24th October, 1905, to 31st March, 1907, as taken from table XII of the appendices:—

<i>Receipts.</i>		<i>Expenditure.</i>	
	£		£
From the constituent Bodies, ...	2,100	Cost of removing seaweed, ...	1,612
Borrowed money, ...	2,300	New works (tow-ways), ...	415
Other receipts, ...	—	Legal charges, cost of Provisional Orders, &c., ...	1,391
		Payments in respect of borrowed money, ...	308
		Other expenses, ...	179
Total, ...	£4,400	Total, ...	£4,806

(d.) *Hospital Boards.*

Joint boards have also been constituted in like manner in four instances for the management of hospitals for special purposes as follows. For cases of infectious disease arising in the urban districts of Rathmines and Pembroke; for consumptives in Cork City and the urban and rural districts in Cork County; for cases of infectious disease in the urban districts of Bangor and Donaghadee* and the urban and rural districts of Newtownards; and for consumptives in the county borough of Dublin, the urban district of Dalkey, and the four rural districts of Ballythory, Colbridge No. 2, and North and South Dublin. These bodies are known respectively as the Rathmines and Pembroke Joint Hospital Board (68 and 64 Viet. ch. cxc.), the County of Cork Joint Hospital Board (4 Edw. 7, ch. cxxiv.), the Bangor and Newtownards Joint Hospital Board (4 Edw. 7, ch. cxxiv.), and the Dublin Joint Hospital Board which has been formed under a Provisional Order of the 24th of May, 1907, confirmed by 7 Edw. 7, ch. liii. The following is a summary of the accounts of the three first-named Boards for the year,—a short abstract being given in table XIII of the appendices:—

<i>Receipts.</i>		<i>Expenditure.</i>	
	£		£
From the constituent Bodies, . . .	2,154	Salaries and wages, . . .	678
Money borrowed, . . .	—	Payments in respect of borrowed money, . . .	313

Fees, . . .	23		
Other receipts, . . .	60		
Total, . . .	<u>£2,269</u>	Total, . . .	<u>£2,462</u>

(e.) *Burial Boards.*

Eight joint burial boards, as named in table XIV of the appendices, have also been constituted in the same way; each board, with one exception,† acting for a district comprising one or more urban districts united with a rural district, or with part of such a district. The councils of urban and rural districts are in all other cases the burial boards for their respective districts, and the receipts of the former as such are included in the town returns in tables II, III, and IV of the appendices, the fees received by the latter being shown in table V (Part I).

The following is a summary of the accounts of these boards for the year:—

<i>Receipts.</i>		<i>Expenditure.</i>	
	£		£
From the constituent Bodies, . . .	1,064	For purchase of ground, . . .	1,038
Fees and payments for interments, . . .	717	Fencing, drainage, maintenance, &c. . .	284
Money borrowed, . . .	1,109	Salaries and wages, . . .	1,259
Other receipts, . . .	1,318	Payments in respect of borrowed money, . . .	998
		Rents, taxes, and other payments, . . .	411
Total, . . .	<u>£4,219</u>	Total, . . .	<u>£4,050</u>

V.—PORT SANITARY AUTHORITIES.

In pursuance of section 9 of the Public Health (Ireland) Act, 1896, sanitary bodies have been constituted, under Provisional Orders subsequently confirmed, for the ports of Belfast, Londonderry, Dublin, Galway, Cork, Waterford and New Ross, these bodies being designated Port Sanitary Authorities. In the two first-mentioned cases the Corporations of Belfast and Londonderry are the sanitary authorities for the respective ports, but in each of the other cases a joint board has been formed consisting of a representation of the councils of the sanitary districts abutting on the port, one such board acting for the two ports of Waterford and New Ross.

The receipts and payments of these bodies during the year are set forth in table XV, of which the following is a summary:—

<i>Receipts.</i>		<i>Expenditure.</i>	
	£		£
From the constituent Bodies, . . .	1,474	Salaries and Wages, . . .	901
Money borrowed, . . .	200	Payments in respect of borrowed money, . . .	78
Other receipts, . . .	70	Other expenditure, . . .	731
Total, . . .	<u>£1,744</u>	Total, . . .	<u>£1,710</u>

* Since the formation of this joint district the town of Donaghadee was separated from the Newtownards rural district and constituted an urban sanitary district. By Order of the Local Government Board dated the 13th of March, 1907, it was included as such in the joint district; and the hospital in the case, at first intended for small-pox cases only, is now available for all cases of infectious disease under Provisional Order of the 26th of March, 1907, confirmed by 7 Edw. 7, ch. cxviii.

† Dungar Lateral board, which consists of representatives of three rural district councils. See second note to table XIV, on page 36.

VI.—TAXATION ARISING FROM FEES, STAMPS, FINES, DOGS LICENCE DUTY, &c.

This species of taxation is applied partly to the remuneration of officers of local courts, and partly in aid of county and town rates, as appears hereafter.

The officers styled Clerks of the Peace and Clerks of the Crown, whose salaries are charged on local rates, are now reduced in number to four of each, as shown in tables XVI and XVII of the appendices. In the remaining counties and boroughs these offices have been united as provided for by the County Officers and Courts (Ireland) Act, 1877, and an appointment has been made to the united office of a person styled Clerk of the Crown and Peace, whose salary is paid out of funds provided by Parliament.

Total, ...	<u>£79,133</u>

The salaries and retiring allowances of the clerks of Petty Sessions are charged on the fund produced by Crown fines and the sale of Petty Sessions stamps, and, in order to secure the fund from variation by reason of the fluctuation which necessarily occurs in the amounts received from these sources, the Registrar of Petty Sessions clerks is authorized by the Act 44 & 45 Vict., ch. 12, to deduct from the Dogs Licence Duty, mentioned in the next section, such sum as the Lord Lieutenant may order for any calendar year, and to add it to the fund.

(d.) *The Dogs Licence Duty.*

The collection of the dogs licence duty, 2s. for each animal, with 6d. for the registry of each licence, is entrusted to the Petty Sessions clerks, and a return of it is made to Parliament by the Registrar of Petty Sessions clerks. A considerable part of the remuneration of Petty Sessions clerks is derived from the dogs licence duty, as

mentioned in the preceding paragraph. The surplus of the duty, after providing for the cost of collection, is paid over in aid of county and town rates, pursuant to 28 Vict., ch. 50, as amended by 30 and 31 Vict., ch. 116.

The following summary shows the amount of this duty collected for the latest year available, £47,794, as against £45,621 in the preceding year. Details of the payments made from the latter amount to county and town authorities will be found in tables I, II, III, and IV of the appendices,—those to counties amounting to £18,332 and to towns to £3,256 :—

ARTERIAL DRAINAGE.

Repayments to the Commissioners of Public Works in respect of loans for construction of drainage works, and of expenditure on maintenance in case of default by Drainage Boards.

The particulars of these repayments have been supplied by the Commissioners of Public Works. The repayments made by proprietors of lands amounted to £49,392, and the sum repaid out of county rates was £1,865, as may be seen by table XXIII of the appendices.

Loans and stock outstanding against local Bodies.

Tables XXV, XXVI, XXVII, XXVIII, XXIX, and XXX give in detail, respectively, the capital indebtedness of county councils, committees of lunatic asylum districts, town authorities, the Belfast City and District Water Commissioners, joint boards for sewerage, burial, port sanitary and other purposes, rural district councils, boards of guardians, and harbour authorities, at the close of the financial year ended on, or before, the 31st of March, 1907, with similar particulars for the preceding year.

The following is a summary of the local indebtedness :—

NOTE.—Deductions on account of duplicate entries, &c.

Certain deductions, chiefly to avoid duplicate reckonings, have been made in the accounts dealt with in these returns, as follows :—

In county taxation the other receipts on page xii have been reduced by £5,532 paid from the General Cattle Diseases Fund, and £37,111, which was not part of the taxation of the year; in town taxation the other receipts included in the table on page xvi have been reduced by the following sums :—£3,549 from Petty Sessions Stamps and Crown fines; £658 from the General Cattle Diseases Fund, and further sums amounting to £55,007, while the Rural District Fund has been reduced by £1,461. In the case of harbour taxation the receipts on page xxii have been reduced by £24,133, portion of which is referred to in first note on page 41.
